HIEU PHAN TRUNG FRONT END DEVELOPER

WORK EXPERIENCE

INTERN // Nov 2024 - Mar 2025

VietSoftware International (VSII) - FE Intern

Training on Agile/Scrum Development

Build UI components for maximum performance and reusability

Participate in code reviews and contribute to team knowledge sharing.

Troubleshoot and debug applications.

Stay up-to-date with the latest industry trends and technologies.

Go onsite to BIDV.

PROJECTS

WORKFINDER // JAN 15 - Current

Technologies: ASP.NET Core MVC, Entity Framework Core, PostgreSQL, Bootstrap 5,

ASP.NET Core Identity

A comprehensive web application for job searching and recruitment, designed to connect job seekers with employers efficiently using modern web technologies.

Responsibilities:

- Developed a full-featured job search platform using ASP.NET Core MVC
- Created responsive user interface with intuitive navigation and user experience
- Designed complex data models for jobs, companies, and user profiles
- Integrated authentication and user management systems
- · Developed repository pattern for efficient data management

Github: https://github.com/pth2003/WorkFinder

Technologies: React, React Router, SWR, Tailwind CSS, The Movie Database API

A responsive web application for browsing and exploring movies, featuring a modern user interface and comprehensive movie discovery functionality.

Responsibilities:

- Designed and implemented a dynamic React-based movie application with multiple pages and components
- Integrated The Movie Database (TMDB) API to fetch real-time movie data
- Developed responsive and interactive UI components including Banner, Movie List, and Movie Details pages
- · Implemented search functionality with debounce for efficient movie searching
