Intern FrontEnd Developer

As a fourth-year student at Hanoi Open University, I have a foundation in frontend development technologies, including HTML, CSS, JavaScript, ReactJS, and Next.js 14. I have successfully completed a short-term training course in Fullstack Development at F8 Education. My participation in university-level informatics competitions has further sharpened my problem-solving abilities and technical expertise.

AWARDS & SCHOLARSHIPS

Second prize in computer science competition • 08/2023

HOU - Ha Noi Open University

PROJECTS

React Movie • 09/2023 - 11/2023

Developed a movie website using React and TheMovieDB API with the following key features:

- **Search Functionality:** Real-time search with auto-suggestions.
- **Movie Details Page:** Comprehensive movie information including synopsis, cast, crew, and trailers.
- **Recommendations:** Personalized movie suggestions based on user preferences.
- **Responsive Design:** Optimized for all devices.
- **User Reviews and Ratings:** Users can rate and review movies, with average ratings displayed.
